

## FVTC - D.J. Bordini Technological Innovation Cen-

**Owner:** Fox Valley Technical College  
Appleton, Wisconsin

**Project Type:** Addition to existing facilities

**Project Cost:** \$2.0 million

**About the Project:** A building addition consisting of a structural steel framed construction with precast aggregate-faced panel exterior walls with an E.F.I.S. fascia. Housed in this new complex are lab and classroom areas for the printing and production departments and related offices.

**Basic Construction:**

**Total Addition** – 34,000 sq. ft.

**Foundations** – concrete footings & walls

**Floors** – concrete slab on grade

**Exterior walls** – aggregate faced precast plank & EFIS fascia

**Roof** – steel joist & metal deck w/sheet membrane

**Entrances & windows** – aluminum

**Floor coverings** – resinous, resilient, carpet

**Interior walls** – metal stud & drywall/  
precast/masonry

**Wall finishes** – paint, ceramic tile, resilient wall protection

**Ceilings** – acoustical, exposed, access flooring

**Specialties** – skylights
