

St. Martin Lutheran School

Address: St. Martin Lutheran Church
Clintonville, WI

Project: New Construction

Project Cost: \$2.3 million

About the Project: A two story, 19,952 square foot educational facility adjoining St. Martin Lutheran Church. The school serves over 200 students in grades Pre-K through 8th. Included in the school are ten classrooms, seven ADA restrooms, four meeting rooms/teaching staff offices, computer and science labs, elevator, student lockers, mechanical room, and a computer server room. Other building features include ADA entrances, individual classroom temperature controls, and a digital communications/security system.

Basic Construction:

Foundations – concrete footings & walls

Exterior walls – modular face brick

Roof – steel joist, metal deck over all areas

Floor coverings – concrete slabs, ceramic tile,

vinyl tile, and carpet

Interior walls –concrete masonry units, metal

stud and drywall

Interior wall finishes – ceramic tile, paint.

Ceilings – acoustical tile, exposed steel joist and deck in mechanical room.
